Jessica – Attached are final versions of the Settlement Agreement, Action Memo and most of the Appendices and Attachments. I say most because the version of the SOW I attached was the one sent to me from Lisa on Tuesday and I wasn't sure that it was the final, final. Also, I have attached a table of ARARs to the Action Memo that we just drafted this afternoon, so I need to make sure all are okay with that list. Because this is a removal there is a bit more flexibility on the ARARs than with a remedial action. Finally, I didn't attach the map of the Site, which you sent me and the map attached to the action memo showing OU2 within the larger Superfund Site. My hope is that we can go ahead and get signatures rolling while buttoning up the SOW and ARARs list.

I will be delivering two copies of the full package to your office this afternoon, so that if it looks good, you can use these as the signature copies. I did this because you never know with Word if it is going to change the document formatting when you open it in a different machine than it was created on.

Thanks and let me know if there are any questions.
